

## **Citations for resources used in the SM project website**

For the website, I used the button component of MDL ( Material Design Lite ) with minor changes. The link for the same is :

<https://getmdl.io/components/#buttons-section>

For the navigation bar, I have taken code from the following site ( with minor changes ) :

[http://www.w3schools.com/css/css\\_navbar.asp](http://www.w3schools.com/css/css_navbar.asp)

I have used the Font Awesome library for icons. The link for the same is:

<http://fontawesome.io/>

The images used in the website are available at the following links and were taken from there:
